

#7: VACUUM CLEANERS SHOULD HAVE A ONE-WEEK TRIAL PERIOD.

As the hose is pulled  
further from the  
fulcrum, the vacuum  
cleaner tends to  
tumble over more easily!

In exchange for its  
slim body, the vacuum  
cleaner lost some  
of its internal safety

Here's  
how it  
works!

WOULD I HAVE  
BEEN ABLE TO  
GET ONE WITH  
A COOLING OFF  
FEATURE...?

IF I HAD  
ORDERED  
THROUGH  
MAIL,

DIDN'T THE  
MANUFACTU-  
RERS TEST  
THIS IN THEIR  
OWN ROOMS?

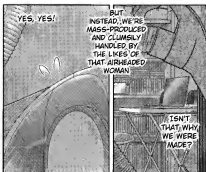

THERE'S SO-  
METHING AB-  
SOLUTELY  
WRONG WITH  
THE DESIGN.

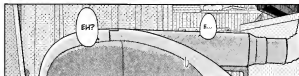

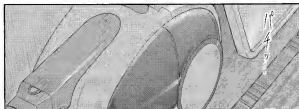

I HAVE TO  
LIVE WITH ITS  
DRAWBACKS  
TOO.

I CHOSE IT  
MYSELF AND  
BOUGHT IT;

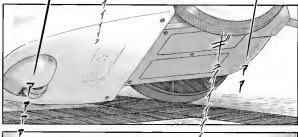

ASH-

I JUST  
LEARNED  
SOMETHING  
FROM A  
VACUUM  
CLEANER!

THERE'S NO  
COOLING OFF  
IN LIFE, HUH...

## Because blank pages shouldn't be blank.

I miss this manga. Shoreijuu came through by resurrecting it from our, sadly, rich graveyard. I hope you enjoyed the chapter. I personally did; unemployed person speaking here. However, I don't have a vacuum cleaner. (Yes, I really don't).

~Rebel

I'm glad I finally got to work with Rebel again, and when he asked me what we'd release, Ms. Unemployed was what came to mind right away. And as with Rebel, I hope you enjoyed the chapter as much as we did. (and appliances back in Japan are kinda complicated indeed^^; )

~Shoreijuu

34 歳 無 職 さ ん

Ms. Unemployed 34 Year-old
